

Model : H510- PRO Zeus Pro

Introduction

This manual provides detailed instructions for the Redragon Zeus Pro H510-PRO wireless gaming headset. To ensure proper operation and maximize your gaming experience, please read this manual carefully before using the product.

Main features:

- Wireless connection (2.4 GHz USB dongle)
- 7.1 Virtual Surround Sound
- Detachable and adjustable microphone
- Comfortable over-ear design with fabric earcups
- Battery life up to 18 hours
- USB-C charging
- Media control buttons on the headset

2. Connect to your device (wirelessly)

1. Plug the USB wireless dongle into an available USB port on your computer, console, or compatible device.
2. Turn on the headset by pressing and holding the power button.
3. The headset should automatically pair with the dongle. A successful connection is usually indicated by a solid light on both the headset and the dongle.

4. Make sure that Redragon Zeus Pro is selected as the default audio input and output device in your device's sound settings.

3. Attach a microphone

The microphone is detachable for convenience. Align the microphone connector with the port on the left earbud and press firmly until it clicks into place. Adjust the flexible microphone arm to your preferred position for optimal sound reception.

Volume control

Use the volume wheel located on the headset to adjust the audio output level.

Mute microphone

Press the microphone mute button on the headset to turn the microphone on or off. The indicator light (if available) shows the microphone status.

7.1 Virtual Surround Sound

The headset supports 7.1 virtual surround sound for an immersive audio experience. This feature is usually enabled by default or can be configured through your device's sound settings or specific Redragon software (if available).

Technical conditions
